

RecallChek[®]

PROVIDED BY:

The only Certified Master Inspector offering RecallChek in the state of Idaho!

We appreciate the loyalty of our clients so much that we have added an additional benefit to each of our property inspections **FREE OF CHARGE!** On August 1st, 2013, we were proud to introduce the newest of our property inspection services, **RecallChek!**

RecallChek is the nation's first and only Appliance Safety and Recall checking system, and will now be included with each property inspection performed by Accent Home Inspection Solutions at **NO ADDITIONAL FEE!**

If a manufacture has designed a dangerous product, they **MUST** recall all of those items and **FIX THEM FOR FREE!** The problem in the law is that most often it's up to you, the consumer, to find out whether your appliance are potential fire or safety hazards. **RecallChek** makes consumer recall searching a thing of the past!

How RecallChek works:

- Your home inspector will copy the model numbers of your built-in home appliance and HVAC system.
- At RecallChek Headquarters, your model numbers are computer matched against MILLIONS of recalls using our Model Number Algorithm (MNA).
- RecallChek issues a report within 48 hours, to the Inspector, Realtors and your Client.
- In the event of a potential recall, we inform homebuyers:
 1. The nature of the recall
 2. Where the product was sold,
 3. How to remedy the defect, and
 4. How to get the item repaired or replaced in most cases – **FREE!**

Your Inspection Servant,

A handwritten signature in black ink, appearing to read "Patrick Fesler".
